Mrs. Will McLaughlin (nee Kitzmeyer) departed last night for her home, The Palms, near Los Angeles, California.

Mrs. Juchs and family of Virginia passed through on the V. & T. last night on their way to the State of Washington where they will reside.

Ten-dollar greenbacks raised from \$1 have been put in circulation in Sacramento, Oakland and other places in California. The work is well done and is liable to deceive persons not accustomed to handling paper money.

Louis Holden, hanged in the U. S. jail at Fort Smith, was the seventy-eighth man hanged by George Maledon, the Federal Executioner. Holden killed George W. Beckford in Indian Territory in 1891, on a hunting and trapping trip.

The raising of fish for food is attracting much attention all over the country. The New York State Commissioners of Fisheries this year hatched and planted 135,000,000 fry of different food fishes, as against 82,000,000 last year.

Last evening the Curry Engine Company gave Messrs Mitchell, Brandon and Emery, three fireboys from the other side of the mountains a reception. It is a sure thing that they had a good time, for the Curry's always treat their friends like Kings.

Here is a chance for some enterprising man to go into business. An exchange says a lodging house is needed in the new district of Kennedy, as at least thirty men are sleeping in improvised beds who would gladly pay for a comfortable bed in a lodging house.

Mr. E. B. Rail admitted to the thanks of pedestrians for the substantial repairing he is giving the sidewalk in front of his store. Although giving some attention to this work he is always ready to wait upon any customer who wants anything in the hardware, chinaware or farming utensil lines.

Judge Lyman Trumble of Chicago has wired to Washington declining to act as government arbitrator in the Pullman strike, for the reason that the act under which arbitrators are appointed will confine their investigations to the present strike, and, inasmuch as the trouble is over, he sees no need of an investigation.

A Sycamore, Ill., sheep feeder has shipped 16,000 head of Eastern sheep to London and sold them at a profit over the prices paid in this country. He is now buying western sheep, which he will fatten in Minnesota and Illinois and then send them across the Atlantic. Western sheep men are watching his scheme with interest.

Shall the Government take the Central Pacific Railroad.

Throughout the Pacific Coast petitions are being circulated, with all possible dispatch, urging Congress to treat the delinquent Pacific Rail Roads as other debtors are treated. To compromise with them would be inexpedient and to the injury of the people. Unless Nevada acts promptly her enemies may consider our silence as approval of the bill now before Congress—which if passed will extend the final settlement fifty years.

C. P. Huntington, whose letters to D. D. Colton are filed as Court records in California, now expresses the opinion, as published in last Sunday's Examiner, that "as a citizen, one who has the interests of his Country before him" he is not in favor of Government ownership of railroads.

What a mockery; this man whose letters to Colton breathe foul treachery to the spirit of our Constitution and reek with anarchy. Now he mouths the sickly sentiment and prates of the "interests of his Country."

Friends; let us unite in signing the petition that is being circulated and promptly forward it to Washington. Thus will our Representatives learn that our desires are the same as when we elected them.

According to evidence submitted at our Opera House some years ago by a distinguished jurist of Carson, one of the C. P. R. R. magnates slurred Senator John P. Jones by referring to him in a manner which his friends should resent. They now can do so.

Our Senators and Representative in Congress now have an opportunity to prove that they are men by defending the honor of their State against the attacks of the corrupt scoundrels whose hirelings murder law in Washington and elsewhere. If they prove recreant, let us remind them of it when they come back to us.

Several such petitions are being circulated in Carson. The one first filled with signatures will be dispatched to Representative Nowlands for immediate presentation to Congress. Senators Jones and Stewart likewise will be notified. The Congressional Record will inform us what action they take in behalf of the people of Nevada—whose servants they are. Let us hope such action may commend them to our further confidence.

The writer doubts not that at least seventy-five per cent of Nevada's citizens desire their Representatives to work and vote for the defeat of Huntington's scheme.

There's sound philosophy in these words: "No man can serve two masters - God and Mammon."

The writer is an optimist who hopes our three servants in Washington will recognize in our petition the "Voice of God" whose accents can not be smothered by the "Sack."

By signing the petition we shall deserve success, otherwise, "Sackcloth and ashes."

M. D. NOTEWARE.

A Wholesale Murder.

Los Angeles, July 26.—Last night John Craig, an ex-police officer, shot and killed his father-in-law, and his mother-in-law, and fatally wounded his brother-in-law. He then made an unsuccessful attempt at suicide. There is talk of lynching him.

Reno claims that it is fast gaining a reputation as a health resort. Carson can put in the same claim, and in some respects is ahead of Reno, as we have excellent medicinal hot springs as well as a more salubrious climate, owing to the slightly higher elevation and absence of river breezes. If ever the weary, sickly people of California realize the healthfulness of Nevada the State will fill up with health seekers.

United States Commissioner Blood good, has rendered a decision in the railway strike cases, holding C. S. McAuliffe, Frank W. Archibald, Eugene V. Debs and seven others for trial on a charge of conspiracy to obstruct the mails.

Regular Mails.

New books and magazines in large variety and quantity, have arrived since the regular males (at \$13 per month) began bayoneting the trains along. New goods by freight will come in "after the ball" is over—bye and bye—at Cagwin and Noteware's.

THE GREAT STRIKE.

An Unsuccessful Day at Woodland-- Quiet at Sacramento.

Woodland, Cal., July 26.—Proceedings today in the examination of the accused train wreckers were without interest. The prosecution succeeded in adducing little if anything to substantiate its charges of conspiracy, nor was any real evidence introduced further implicating any of the defendants in the actual work of wrecking the train.

Sacramento, July 26.—Nearly one thousand men are now at work in the shops here. The strikers who refuse to return have been paid their wages in full. There has been no recent trouble at this point.

Last night in the mountains between the New England Mills and Apple Gate a party of strikers drove a track-walker from the railroad. A company of soldiers were immediately dispatched, but they found that no damage had been done and encountered no strikers.

A Bad Runaway.

Yesterday morning about nine o'clock the sorrel horse that has been driven in the sprinkling cart was killed by the running away of a horse driven by a boy named Johnson. The horse was standing in front of George Meyer's store, when something scared it and it ran away. The Johnson boy being unable to control the animal it ran into the sprinkling cart as it came around the corner of the Ormsby House. The shaft of the cart entered the shoulder of the sprinkling cart horse evidently sliding under the shoulder bone and entering the lungs, causing death almost instantly. There was a general mix-up for a few minutes and it looked as if some one might be killed. Strange to say neither driver was injured, and the only damage to either rig was a broken pole on the sprinkling cart. The horse that was killed was a fine big draft animal and Mr. Briggs valued him at \$100.

Murder of M. D. Foley.

Late yesterday afternoon the report reached here that M. D. Foley, the widely known capitalist and politician had been shot dead in Reno. The early closing of the telegraph office prevented the APPEAL getting the special dispatch telegraphed for as soon as the report was heard.

Rumor said that two shots were fired at him by a woman named Mrs. Hartley, a widow who occupied rooms in the bank building as an artist. The shots were both necessarily fatal, one going through the heart and the other taking effect in the stomach. No further particulars were learned.

Apologetic.

Through an oversight the notice of the performance of Wednesday night was placed on a galley of "dead" matter and got left out of the issue. So good a show deserves the writs up which had been given it, and the APPEAL regrets the mistake. The sweet music of this troupe will always draw no matter what the name of the play may be.

DANCE AT COOK'S.

There will be a dance at Cook's grove on Friday night. Supper served on the grounds. Music by Prof. Brice's orchestra. No objectionable characters allowed. The wagon will make two trips from Calven's Hay Yard.
